

### Company Safety Policy Statement

Control Technology Inc. is committed to preventing the accidental loss of any of its resources, including employees and physical assets. The personal health and safety of each employee of this company is of primary importance.

In fulfilling this commitment to protect both people and property, to the greatest degree possible, management will provide and maintain a healthy and safe work environment in accordance to and beyond industry standards and legislative requirements, striving to eliminate any hazards which may result in personal injury/illness, accidents or property damage.

Employees and contractors at all levels are responsible and accountable for The Company's overall safety initiatives. To be successful, such a program must start with proper attitudes towards injury and illness prevention. Supervisors are responsible for developing the proper attitudes towards health and safety in themselves and in those they supervise and for ensuring that all operations are performed with the utmost regard for the health and safety of personnel involved.

Management supports the coordination and cooperation of all workers and contractors concerning safety on the job site, encourages all employees and contractors to participate in the program and provided proper equipment, training and procedures. Employees and contractors are responsible for following all procedures, working safely and wherever possible, improving safety measures.

An injury and accident free workplace is our goal. Through continuous safety and loss control efforts, we can accomplish this.
